

Mid-level Front End Developer

Position Summary

aptitude⁺ digital

Background

Aptitude Digital is an innovative provider of online customer engagement solutions to Australian financial services companies, ranging from new business acquisition strategies to enterprise software development. For more information visit www.aptituredigital.com.au.

Our passion for technology and dedication to quality and best practice has resulted in long standing relationships with clients nationwide, ranging from medium size intermediaries to some of Australia's largest insurers and financial institutions.

Aptitude Digital's Melbourne office currently offers an exciting new career opportunity for a successful and highly motivated Mid-level Front End Developer with a passion for best practice and at least 3 years' commercial experience in similar roles.

Position Description

As part of our development team your role involves the development of online interfaces ranging from responsive websites through to user-centric online applications and form based solutions.

Your team forms part of a broader capability which includes specialist resources from all major disciplines, from strategy and creative to software architecture, development and system administration.

Our team works within a highly collaborative and agile environment where coding standards and consistent implementation of best practice is paramount. You are expected to uphold a high standard of quality across all engagements and deliverables.

As a company we are passionate about new technologies and we incorporate them in our work practices wherever possible. As a member of our team you are therefore required to stay on the forefront of current technology and you will inevitably gain skills and experience that further advance your career.

Duties & Responsibilities

- Develop and optimise responsive web user interfaces for desktop, tablet and smartphone
- Implement websites and microsites end-to-end using various CMS products
- Develop and maintain libraries of interactive interface components, widgets and input fields
- Assess, evaluate and improve performance of client side applications
- Develop and share knowledge on UI development best practice
- Contribute to day-to-day problem solving across the broader development pipeline
- Assist in the translation of business requirements and provide high level design input
- Collaborate within cross-functional teams

Software & Technologies

- HTML5, CSS2/3, JavaScript, jQuery
- Adobe Creative Cloud, MS Visual Studio

Required Skills & Experience

- Minimum 3 years commercial experience in similar role
- Exceptional front end development skills (HTML5, CSS3, JavaScript / jQuery)
- Ability to install and configure various CMS products (Orchard CMS would be considered advantageous)
- Strong general knowledge of internet technologies, online platforms and concepts
- Great understanding of cross browser and cross email client limitations
- Some C# .NET development experience would be considered advantageous
- Excellent attention to detail and ability to successfully conduct quality assurance
- Strong information elicitation, organisation and analysis skills
- Excellent communication and interpersonal skills
- Excellent time management skills
- Ability to maintain a positive attitude and consistent high standard of performance
- Keen appreciation and passion for excellence and implementation of best practice
- Willingness to go above and beyond to deliver a project

Location

Aptitude's Melbourne office currently located in Abbotsford and is shortly re-locating to East Melbourne, within close proximity to the MCG, public transport, restaurants, and bars. New workstations are equipped with 3 x 28" monitors and high-speed fibre internet. Our new staff facilities include a gym, spacious staff room (with a pool table, foosball and commercial-style bar), and secure facilities for cycling commuters.

Applications

Please send expressions of interest including a cover letter and your resume/CV to midlevelfrontenddeveloper@careers.aptitude.com.
